

LD Seating

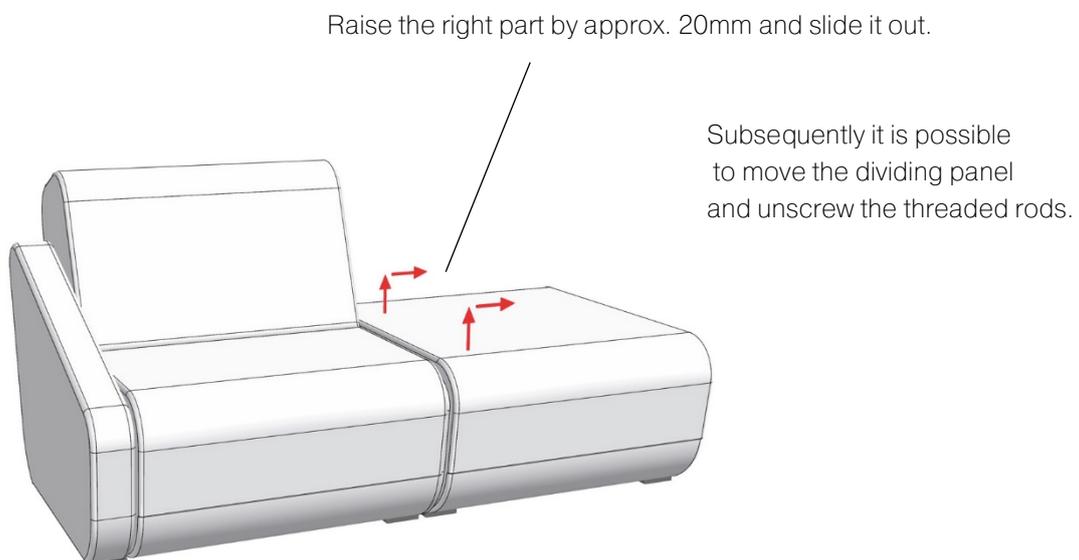

Open Port – assembly instructions

Always connect the parts from left to right:

Open Port – assembly for disassembly

The parts are disconnected from right to left:

LD Seating

Using the chair

This chair may only be used for its intended purpose with due attention and care. Make sure that the individual parts of the chair do not hit furniture, both while sitting and when the chair is moving.

The chair could get damaged. Using the chair for other purposes (sitting on the backrest, etc.) is very dangerous and can cause injury.

Maintenance, clearing

For routine cleaning and maintenance, vacuum the upholstery fabrics regularly. If necessary, clean with gentle agent CLEANEE (an environmentally certified product for cleaning chair and sofa covers).

Clean the plastic parts with mild detergents only. Do not use aggressive chemical cleaners.

Service

All repairs that require the replacement of components should always be carried out by a trained specialist!
